ROBUST, DEPENDABLE AND VERSATILE

Underneath Triton's bold contemporary stylings is a rigid ladder frame chassis. Whether you're driving on the highway or finding your own way the suspension and chassis delivers optimum performance. Up front, the double wishbones with coil springs and stabilizer bar deliver poise and responsiveness, while the rugged above-the axle leaf spring rear suspension gives outstanding load-carrying capacity.

MAKE LIGHT WORK OF HEAVY LOADS

The Triton GL features a spacious load bed measuring 1520mm in length, 1470mm in width and 475mm in depth. The single handle on the tailgate allows for one-handed operation and the four integrated cargo hooks allow for all types of loads to be secured with ease. Triton's impressive power and torque mean big loads are no big deal.

WIDE OPEN SPACE

Carry five adults in comfort in the Mitsubishi Triton GL. Rear seat passengers are well catered for in the spacious cabin, with generous leg room and a reclined seatback angle allowing ample, head and shoulder room.

Manufacturer's Warranty: 3 year / 100 000km. Road Side Assistance: 5 year Unlimited Mileage.
Service Plan: 5 year / 90 000km. Service Intervals: Every 10 000km.

- / Driver's Seat – Seatbelt Reminder (MY22 models only)
- / Leather Seats
- / Electrically Adjustable Driver Seat
- / Chromatic Rear View Mirror

SUPER SELECT II 4WD SYSTEM*

Mitsubishi's unique Super Select II 4WD system offers four different drive modes for improved driver control and passenger safety. The 4H drive mode distributes torque in a 40:60 ratio between the front and rear wheels for safer on-road driving in slippery conditions i.e. dirt, gravel and wet roads. 4HLC (4WD High range with CD locked) distributes torque equally between the front and rear wheels for improved traction on sand, dirt and slippery surfaces like snow. 4LLC (4WD Low range with CD locked) provides greater torque for extreme off-road conditions.

ELECTRONIC OFF-ROAD ASSISTANCE*

To further enhance the off-road experience provided by the unique Super Select II 4WD System, Hill Descent Control has been added for additional safety when on dangerous ground. In addition, the selectable Off-road Mode maximises traction on unsealed surfaces. The additional electronic assistance allows the driver to select either the Gravel, Mud/Snow or Sand mode in 4HLC to suit surface conditions and optimise engine output, transmission settings and braking for superior traction. The additional Rock setting can be engaged in 4LLC.

6-SPEED AUTO TRANSMISSION

The Triton combines a powerful 2.4L MIVEC Turbo Diesel Engine with an all-new 6-speed Automatic Transmission with Intelligent Shift Control, delivering the optimum balance of engine power, fuel economy and interior quietness with smooth acceleration at low engine revolutions. Replacing the 5-speed automatic, the new 6-speed Automatic Transmission feels progressive and is easy to modulate, shifting decisively and smoothly. One of the outstanding features of the new 6-speed Automatic Transmission is its quiet operation in all modes.

Manufacturer's Warranty: 3 year / 100 000km. Road Side Assistance: 5 year Unlimited Mileage.

Service Plan: 5 year / 90 000km. Service Intervals: Every 10 000km.
